

East Carlton Countryside Park is situated on the edge of the beautiful Welland Valley. The Heritage Centre in the converted coach house and stables houses a display featuring the history of Corby and the development of the iron and steel industry in the town.

The café is open all year and offers light meals, hot and cold drinks and ice-cream. The first floor of the old coach house has a number of craft workshops where you can watch the individual craftsman practice their skills.

There are country walks throughout the park through fine mature woodland and grasslands. You can see a much varied habitat and a great variety of wildlife throughout the year.

Unfortunately, the hall is not open to the public but can be viewed from the park. The present hall built in 1863 on the site of a previous hall is thought to be the third hall on this site. Like all good buildings it does have a ghost who has on occasions been known to visit the old coach house.
