### Conditions

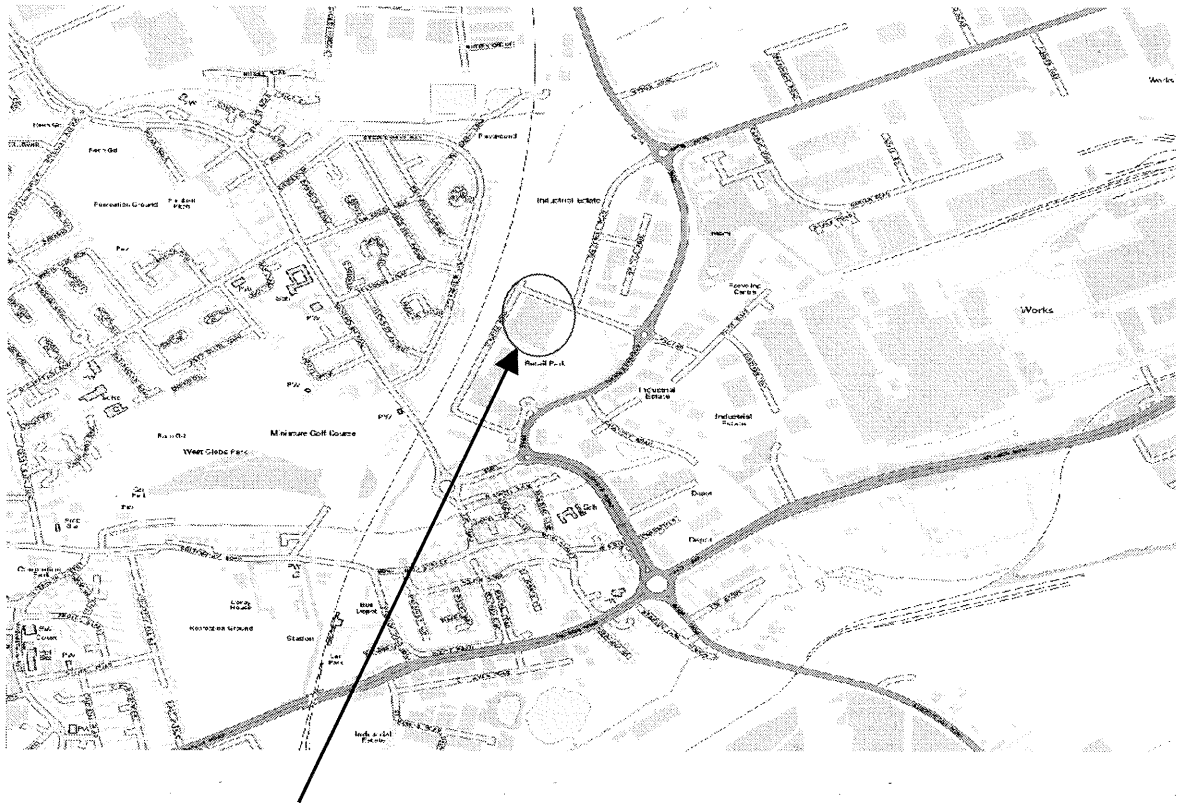

1. Operations must be carried out in such a manner that no more than 20 grams of solvent per kilogram of product cleaned and dried shall be emitted as measured and reported annually. The 20 grams includes all organic solvents used within the installation e.g. dry cleaning solvent, water-proofing solutions and spot cleaning solutions.
2. A weekly inventory of solvent usage, product cleaned and solvent waste sent for recovery or disposal shall be maintained and held on site for inspection by the Regulator for at least 12 months. Further, the Operator should retain records of solvent purchased for at least 12 months.
3. A copy of the monthly inventory sheets shall be sent to the Regulator once yearly on 1<sup>st</sup> September.
4. In the case of abnormal emissions, malfunction or breakdown leading to abnormal emissions the operator shall:
  - a. investigate immediately and undertake corrective action; adjust the activity to minimise those emissions; **and**
  - b. adjust the activity to minimise those emissions; **and**
  - c. promptly record the events and actions taken.
5. In cases of non-compliance causing immediate danger to human health, or threatens to cause an immediate significant adverse effect upon the environment, operation of the activity shall be suspended; and the Regulator informed within 24 hours.

6. The dry cleaning machine loading door shall be closed before the start-up of the machine, and kept closed at all times through the drying and cleaning cycle.

All machines installed after 19 May 2005 shall have interlocks to prevent start-up of the machine until the loading door is closed and to prevent opening of the loading door until the machine cycle has finished and the cage has stopped rotating.

All machines installed after 19 May 2005 shall have interlocks to automatically shut down the machine under any of the following conditions: cooling water shortage, failure of the cooling ability of the still condenser, failure of the cooling ability of the refrigeration system or failure in the machine heating system resulting in the inability to dry the load.

### Site Location Plan

**Store Plan (within Asda Store)**

**Key**

- A = Dry cleaning machine
- B = Solvent residue storage
- C = Spotting table
